

Super BioBugs Bio-Flow GT

Product Information
2168151

DESCRIPTION

Super BioBugs GT is a multi-species blend of non-pathogenic microorganisms designed to naturally digest organic matter and grease. This product is a revolutionary breakthrough for eliminating grease and odor. Economical to use with billions of organisms available, this is the best in fats, oils, grease and organic waste control.

FEATURES

A blend of bacteria genetically grown specifically for degrading and digesting fat, oil, grease and odor causing organic materials. This unique formulation produces pentosanase which modifies the surface activity of grease and other organics preventing build-up in sewer and drain lines. Certified free of Salmonella and E. Coli, non-polluting, non-pathogenic, non-acid, non-alkaline, and safe for use.

This amazing product is excellent at reducing suspended solids, sludge volumes and BOD with rapid bacteria replication. **Super BioBugs** eliminates organic odors such as urine in carpet, vomit, spoiled food, decomposed animals and waste receptacles.

Available in Pails and Drums.

APPLICATIONS

Grease traps	Portable toilets
Garbage trucks	Drain lines
Carpet	Bathrooms
Waster treatment facilities	Septic tanks

PHYSICAL CHARACTERISTICS

Appearance	Milky white liquid
Odor	Mild
pH	6-7
Solubility	100%
Stability	Stable
Flammability	N/A
Organism Count	750 billion/gallon
Boiling Point	>212°F
Enzymes Produced	Amalyase Dioxygenase Lipase Pentosanase Proteases (Alkaline & Non\Alk) Urease

Certified Salmonella & E. Coli Free
