DIRECTIONS

Tip: Cleaning action is accelerated if condenser coil is still warm from use.

1. Read entire label & Safety Data Sheet before use.
2. Disconnect all power before working on equipment.
3. Protect surrounding area from over-spray.
4. Using a suitable low-pressure sprayer, dilute **Coil Bright** with water according to dilution rates below.
5. Always spray downwind with a coarse spray to avoid misting. Spray between fins using horizontal motion, working from bottom up.
6. Wait 3-4 minutes until foam begins to subside and rinse completely with large amounts of water.
7. Flush sprayer completely with water after use.

FOR PROFESSIONAL USE ONLY
