

Gorilla Coat

Product Information

1346014

DESCRIPTION

Gorilla Coat is a liquid surface conditioner and primer that converts existing rust into an inert, protective coating sealing out moisture and corrosion to prevent future development. Unlike other products, **Gorilla Coat** is not a simple cleaner or cover-up. The special formula attacks rust at the chemical level, for fast, long-lasting results. Treated surfaces turn matte black, and can be painted with an oil-based paint for even longer protection against new rust.

FEATURES AND BENEFITS

- Effects of Weather-Rain, Sun, Salt Spray
- Converts rust into a durable, long-lasting, protective coating
- Prepares metal surfaces to readily accept final coats of oil-based paint
- No sandblasting, grinding or etching required

PHYSICAL CHARACTERISTICS

Appearance	Opaque beige
Odor	Bland
pH	1.5-2.5
Specific Gravity	1.13
Flash Point	N/A
Boiling Point	N/D
VOC Content	<3.0

MARKETS

Medical Facilities	Nursing Homes
Government	Commercial Buildings
Cruise Ships	Air Ports
Hotels	Resorts
Schools	And More!

DIRECTIONS

SURFAC PREPARATION: Remove large rust and scale particles with a wire brush or sandpaper. Clean the surface thoroughly to remove dirt, dust and grease.

APPLICATION: Shake or stir well before using. This product is ready-to-use. Do not dilute. Apply this product using a brush or roller. Apply a second coat to ensure complete transformation of rusty surface.

COVERAGE: 500 square feet per gallon on a smooth, non-porous surface. Irregular, porous or textured surfaces may require more product.

DRYING TIME: The resulting coat will dry to a smooth dark finish in 2 minutes. Apply a second coat to ensure complete TRANSFORMATION OF RUSTY SURFACES. Allow 48 hours of cure time before the application of the finished paint coat.

CLEAN-UP: Application equipment should be cleaned immediately with soap and water.

FOR PROFESSIONAL USE ONLY
