DIRECTIONS

1. Shut off power supply. Be sure all stored power is drained from system and allow hot surfaces to cool before using product.
2. Tilt surface and spray until clean.
3. Use an Intermittent spray to dislodge trapped particles and allow excess cleaner to run off.
4. Use extension lube for pinpoint delivery or hard-to-clean areas.
5. Allow product to dry completely and thoroughly vent system before restoring power.
6. For personal safety, do not apply while equipment is energized.
