

Marble Compound is a dust free polishing compound for maintaining and restoring a beautiful shine on marble, travertine, and terrazzo floors and surfaces. Marble Compound restores the natural and beautiful shine to your natural stone floors.

**Use On:** Marble, Travertine, Terrazzo, and other calcium based stones. Always test a small area to check for desired outcome.

#### APPLICATION

Remove all waxes and finishes from floor using a stripper and degreaser product before first use.

**Equipment:** Standard low speed floor machine (175-220 RPM), Natural or hogs hair pad.

**Coverage:** 150 ft/lb

**Size:** 10 lb, 25 lb

#### DIRECTIONS

1. Mask and tape off surrounding areas to avoid damages.
2. Sprinkle 2 scoops of the compound on the floor in an area the size of the buffing pad.
3. Place machine on powder, wet floor and begin buffing in a circular motion in a 3'X3' area. Be sure to maintain a wet slurry.
4. Vacuum or mop up after 45 seconds of buffing or when desired shine is achieved.

**Quick Tip:** Can be used to touch up high traffic areas, no need to do the entire floor.
