

Gone

Product Information

2340012

DESCRIPTION

Gone is a specialized formulation that may be used to pre-spot carpet, rugs, and upholstery prior to overall cleaning, or as a spot and stain remover for localized application. It can emulsify oil base matter such as make-up, lipstick, oils and greases, fats, hair creams and dressings, shoe polish, floor wax and inks.

Gone is equally effective on water based matter such as pet stains, coffee, cola, tea, food spills, grass stains, wine and liquor. This product is odorless and biodegradable.

FEATURES

- Pre-spot for many applications
- Great on water based things
- Great on oil based things
- Odorless and biodegradable

PHYSICAL CHARACTERISTICS

Appearance	Liquid
Odor	Butyl
pH	12-13
Specific Gravity	1.0
Flash Point	>212°F
Boiling Point	> 212°F

Medical Facilities	Nursing Homes
Government	Commercial Buildings
Cruise Ships	Universities
Air Ports	Industrial Areas
Hotels	Resorts
Schools	And More!

DIRECTIONS

1. If Spot contains some solid matter, scrape up as much as possible prior to application of product.
2. Saturate spot with undiluted product and allow to penetrate into stain.
3. Absorb product and dissolved matter with a paper towel or cloth. Re-apply product to spot and agitate slightly.
4. Repeat this procedure until paper towel or cloth seems to have dissolved all of the spot.
5. Allow to dry. When dry, vacuum the surface, or brush upholstery fiber to raise pile or nap. Some oil based stains tend to 'bleed' when emulsification occurs, so take care not to spread stain. Do not mix this product with other cleaning compounds or solvents.

Note: Always check an obscure area of surface to determine color fastness of fabric. Do NOT use on wool or velvet fibers.

FOR PROFESSIONAL USE ONLY
